

CP-1262HE

HDMI to PC/YUV Converter

HDMI to PC/YUV Converter Convert digital HDMI to Analogue PC or SD/HD output. It enables connection between HDMI sources to an analogue PC monitor, Projector or TV. Its high bandwidth capability supports a wide range of PC and HDTV resolutions. (NON-HDCP ONLY)

Features

- Supports HDMI input and Analogue PC or SD/HD output.
- Output YPbPr/RGB switchable.
- Supports input/output resolution as below:
 - PC: 40x480, 00x600, 1024x768, 1152x864, 1280x800, 1280x1024, 40x900, 1600x1200, 1680x1050, 1920x1200:
 - HD: 480I, 576I, 480P, 576P, 720P, 720P, 1080I, 1080I, 1080P, 1080P.
 - Note: Due to the limitation of Tri-level synchronies output the image will shift to the left side of the screen when component output at 720p/1080i/1080p.
 - If HDMI source includes HDCP(High-bandwidth Digital Content Protection), output display does not support HDCP decryption, no image will display.
- Built in EDID.
- HDMI 1.3, HDCP 1.1 and DVI compliant.

Specification

Input 1 x HDMI female port

Output VGA - HD-15 (RGBHV/YPbPr) +1 x 3.5 Stereo Audio Jack

Power 5V 1A Centre-positive

Dimensions 76(w) x 30(d) x 92(h) mm
