eas@screen
DIGITAL SIGNAGE SOLUTION
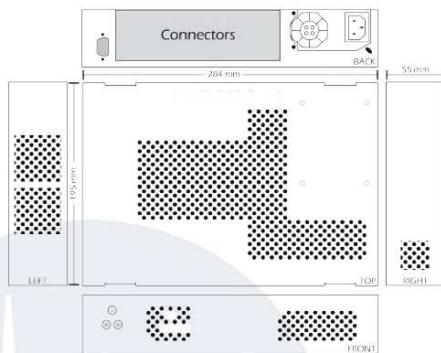

Data Sheet Player Gold

The easescreen player system is particularly renowned for its small size and its energy efficiency, but is still highly efficient in its performance. The easescreen player may easily be integrated into existing networks and enables users to centrally control and distribute multimedia content via the IP network.

The player is extremely well suited for your Digital Signage system due to the pre-installation of your POV-Client software, Windows and all other codecs and software applications that are necessary to display numerous file formats.

You may display not only HD videos, PowerPoint, video streams, TV, RSS and web sites, but it is also possible to trigger previously designed events via interactive interfaces like RFID, movement sensors or touchscreens.

Specifications valid for all easescreen players:

- Ready-for-use player PC (easescreen-POV-Client-PC)
- Windows 7 Professional
- DS-Software easescreen (license not included)
- Size: 285 x 195 x 55 mm (W x D x H)
- Warranty: 24 months bring-in
